

YOUR QUICK-START WEDDING PLANNER GUIDE

A little plan. *A lot of love.*

Your blank Knotty Details wedding planner gives every date, decision, person, and dollar a lovely place to land—so you can plan at your own pace.

One simple purchase, one lasting link. Buy the guidebook once for **\$19.99 through Etsy**. The seller will manually send this guidebook and your permanent public planner link.

1

Open your planner

Open <https://www.theknottedetails.com/> in a web browser. No login, account, subscription, activation, payment gate, or external database is needed. The site is a blank planner, ready for your details.

2

Set the big picture

Add your **couple names, wedding date, venue, and budget**. These details give your planning dashboard a clear starting point and help keep decisions connected.

3

Build your task list

Add the jobs that matter to you, then use due dates and check-offs to make the next step manageable. Make it yours—there is no required planning order.

4

Care for your guests

Enter guests, track **RSVPs, meals, and dietary needs**. Keep the information you need for a thoughtful welcome and an accurate final count.

5

Bring the day together

Organize **tables and seating, vendors, expenses, and your wedding-day timeline and contacts**. Keep arrival times, phone numbers, balances, and key instructions close at hand.

Your permanent planner link: <https://www.theknottedetails.com/> — keep using the same public link whenever you return to your planner.

MAKE THE DETAILS USEFUL ON THE DAY

Your planning pages, *your way* ♥

Start with the essentials, then return whenever a new decision needs a home. A little progress is still progress.

A simple planning rhythm

WHENEVER YOU NEED IT

START

Fill in couple names, date, venue, and budget so the planner reflects your wedding from the first visit.

PLAN

Work through tasks, guests and RSVPs, meals and dietary needs, then add tables and seating as your guest list settles.

TRACK

Add vendor contacts and expenses as you book. Keep balances and important phone numbers where you can find them.

READY

Shape the wedding-day timeline and contacts into a clear run sheet for the people helping the day go smoothly.

PRINT WHAT YOU NEED

☐ Use your browser's Print option on any useful planner page.

☐ Print the seating plan for the venue team and helpers.

☐ Print the wedding-day run sheet and contacts.

☐ Choose Save as PDF if you want a digital backup.

☐ Check print preview before printing to paper.

☐ Print updated pages again when details change.

A clear, honest note about saving.

Planner entries are saved **only in the current browser on the current device**. They do not sync across devices. Clearing browser or site data may erase saved entries. There is no cloud backup or cross-device collaboration, so print useful pages—especially your seating plan, expenses, and run sheet—as a backup.

WHAT THIS PLANNER DOES NOT DO

The planner does not require a login or account and has no subscription, activation, payment gate, or external database. It does not send guest emails or reminders, process payments, or provide cloud storage. **Keep contracts and payment details in secure services, and verify final information with your vendors.**

One small step. Then a little celebration.
